

OECD PUBLISHING SERVICES

JULY 2014 RELEASE

OECD iLibrary news – what has happened since 2010 ?

- The OECD iLibrary has **grown** a lot since its launch in 2010. In 2011, it reached 3.5 million downloads. This number increased to 5.2 million in 2012, and **8.9 million** in 2013. For the first time, in March 2014, we hit **1 million downloads** in a single month.
- This growth is not happening by itself. Our dissemination network is actively promoting the OECD iLibrary in all regions of the world, as we now have over **6.000** registered institutions in **163** different countries.
- We work hard to make content more **accessible**. By breaking our big reports into smaller, easier-to-find segments, permanently bridging **data** and **analysis**, we now publish 144.000 + different pieces of content, each with its own DOI and individual citation. 56% of these (over **81.000**) are **tables and graphs**, available in Excel, as well as in HTML, PDF, or GRAPH formats in many cases.
- The OECD continues to deploy its **freemium** strategy, improving the **accessibility** of content for **all visitors** to the site, while at the same time providing **added-value services** for the network of subscribers. In 2013, the launch of the « Read » service, opening analytical content for all to read online in a mobile, social media-friendly format, has had a dramatic impact on usage inside and outside subscribing institutions.

OECD iLibrary news – what have we done in 2014 and why ?

In 2013 we launched extensive user research (online surveys, interviews, focus groups) in order to identify key areas of improvement. Users asked us to focus on three main areas:

- Improve access to **country** and **theme** information
- Give the capacity to filter **search results**
- Improve **accessibility** and **usability** of data resources

Following these surveys we launched **two major initiatives**:

- Launch a brand new innovative portal, « **OECD Data** », bridging between OECD.org and OECD iLibrary in order to improve data accessibility.
- Upgrade the **OECD iLibrary** to improve the user experience

These two initiatives are **now live**. OECD iLibrary and OECD Data are very closely linked and have the **common goal** to improve user experience and accessibility of OECD content for all.

OECD iLibrary and OECD Data– what are they, and for whom ?

The OECD iLibrary is our global knowledge base, granting access to all OECD published content, books, papers, statistics. It also contains publications from IEA, NEA, ITF and OECD Development Centre. Primarily designed for users inside institutions, whether academic, governmental, or corporate, it is now serving a much wider audience, delivering access to all content in a wide range of formats.

OECD Data organises over **160 indicators** – covering the most frequently requested and highest profile indicators – across twelve main topics. The website allows users to explore OECD data across a range of attractive, innovative, interactive visualisations including table, chart and map views. Users benefit from links to all datasets and related publications.

Both services are complementary and inter-connected:

- The **OECD iLibrary** is indexing the 160 new indicators from OECD Data, alongside all other published objects, so that they can be discovered in the global knowledge base. It will direct users who find them towards the innovative tools and functions available from this new web site.
- **OECD Data** is indexing all datasets , related publications and directs all expert users to the OECD iLibrary to access the full content. This innovative data service web site will be another source of traffic to the deep resources available from the OECD iLibrary

OECD ILIBRARY

JULY 2014 RELEASE

New functionalities to improve the
user experience

NEW navigation bar

Clear access to **theme** pages and **country** selections

A brand **new** feature allows the user to perform **combined theme and country** selections

Navigation by **books, papers, Factbook, glossaries** is still available in the « Catalogue » function

The new functions follow **user demand** and the design is **tablet-friendly**

The screenshot displays the OECD iLibrary website interface. At the top, the 'OECD iLibrary' logo is on the left, and a search bar with 'Advanced Search' and 'Search Tips' links is on the right. Below the logo, a horizontal navigation bar contains five tabs: 'Browse by Theme', 'Browse by Country', 'Browse by Theme & Country', 'Catalogue', and 'Statistics'. The 'Catalogue' tab is highlighted. Below the navigation bar, the main content area is divided into three columns. The left column, titled 'Just released!', features a book cover for 'Employment and Skills Strategies in Ireland' with the subtitle 'Job Creation Just Ahead'. The middle column, titled 'Featured title', features a book cover for 'Society at a Glance 2014'. The right column, titled 'Coming soon', lists upcoming publications: 'OECD Economic Surveys: Finland 2014', 'Taxing Wages 2014', 'PISA 2012 Results: Creative Problem Solving (Volume V): Students' Skills in Tackling Real-Life Problems', 'Employment and Skills Strategies in the Czech Republic', and 'Employment and Skills Strategies in Northern Ireland, United Kingdom'. Below these columns, there are three more sections: 'What's in the news?', 'Focus', and 'OECD iLibrary News'. The 'What's in the news?' and 'Focus' sections repeat the book covers from the 'Just released!' and 'Featured title' sections respectively. The 'OECD iLibrary News' section contains links to 'Multilingual Summaries of publications are now available in ePub format to read on mobile devices.', 'Introduction of Active Charts for users to "play" with data', 'All content on Nuclear Energy can now be read online', and 'The Power of Transformation'. At the bottom of the page, the OECD logo is on the left, and a footer contains links for 'Terms and Conditions', 'Copyright and Permissions', 'Educators and Students', 'Privacy Policy', 'Contact Us', and 'Site Powered by Publishing Technology'.

Re-designed home page

« **Coming soon** » is a new section automatically displaying the five most recent titles

The five other sections are entirely managed manually and **content will be tested** until we find what best suits users, and could be a combination of:

- Recent titles
- Featured titles
- Links to most used titles
- Links to OECD iLibrary news
- Links to FAQs
- Links to tutorials, videos etc.

The screenshot shows the OECD iLibrary website interface. At the top, there's a header with the OECD iLibrary logo, a search bar, and navigation links. Below the header is a main navigation bar with tabs: 'Browse by Theme', 'Browse by Country', 'Browse by Theme & Country', 'Catalogue', and 'Statistics'. The main content area is divided into several sections. A yellow box highlights the 'Coming soon' section, which lists five upcoming titles: 'OECD Economic Surveys: Finland 2014', 'Taxing Wages 2014', 'PISA 2012 Results: Creative Problem Solving (Volume V): Students' Skills in Tackling Real-Life Problems', 'Employment and Skills Strategies in the Czech Republic', and 'Employment and Skills Strategies in Northern Ireland, United Kingdom'. Below this, there's a 'More forthcoming titles >' link. Other sections visible include 'Just released!', 'Featured title', 'What's in the news?', 'Focus', and 'OECD iLibrary News'. The footer contains the OECD logo and various legal and contact links.

CO2 emissions from fuel combustion

Click to Access: WEB PDF XLS READ

This table includes data on CO2 emissions from fuel combustion data in million tonnes. The table is part of the key tables collection on environment.

Focus

DID YOU KNOW?

Thematic Video on Environment

Global emissions of CO2 from the energy sector have grown by more than 1.5% per year since 1990. Explicit

« Browse by country »

« Browse by country » gives direct access to all published items that have been **indexed** for this particular country

The indexation is performed by **Editors**.

Content is « tagged » only if the content piece is **specific** to that particular country.

This indexation is **more powerful than « search »** which will always retrieve all the pieces of information countaining the country name.

This is especially useful for retrieving **country chapters and graphs** from within more general publications

Institutional investors assets

OECD
11 Sep 2013
Data are: Annual
DOI: 10.1787/data-00498-en
Years covered: 1980-2012

This dataset presents financial and non-financial assets of institutional investors. Data are broken down by type of investor: open-end and closed-end investment funds, life and non-life insurance corporations, pension funds, and other forms of institutional savings; and by type of asset: currency and deposits, securities, loans, shares and other equities, other financial assets, and non-financial assets. Assets are reported in millions of national currency, in current prices.

Also available in: French

Keywords: money market funds, pension funds, real estates funds, investment funds, insurance corporations, institutional savings, mutual funds, financial assets, system of national accounts

Improving **accessibility** of OECD iLibrary

- **Athens / Shibboleth** : now in place for UK and US federations, more countries will be added by the end of 2014 (contact OECD for more details)
- ALL OECD iLibrary metadata and full text indexed by the four major Discovery Services by the end of 2014: **EBSCO EDS, Ex Libris Primo, ProQuest Summon, OCLC WorldCat**

OECD DATA

JULY 2014 BETA RELEASE

An OECD Data innovation

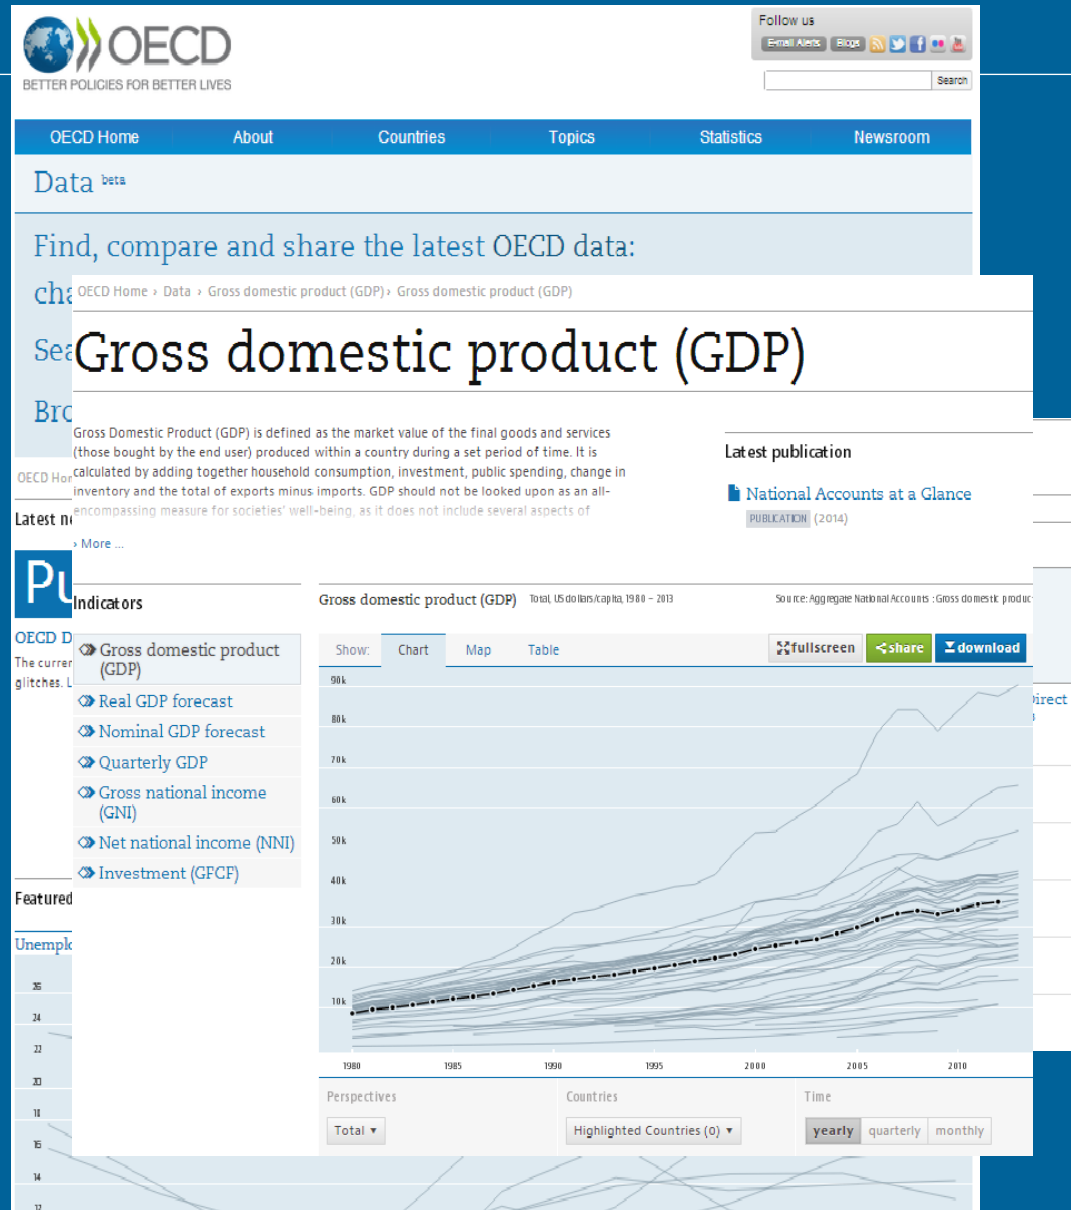

New OECD Data beta

OECD Data aims at improving the **accessibility** and **reach** of OECD data for **expert** and **non-expert** users alike.

The goal is to provide a centralised gateway to the most **accessible**, **comparable** and **high quality** statistical content across the OECD

The new Indicators are grouped by theme

They provide data definitions as well as innovative interactive charting tools

New OECD Data beta

The 160 indicators correspond to the **most often used** and requested statistics

Beyond the interactive charting tool

Indicators deliver paths to **underlying data resources** (statistical publications and datasets)

It is expected that oecd.data.org will become an important **source of traffic to the OECD iLibrary**

Foreign direct investment (FDI)

Foreign direct investment (FDI) is defined as cross-border investment by an entity resident in one economy, in order to obtain a lasting interest in an enterprise resident in another economy. Lasting interest implies a long-term relationship between the direct investor and the enterprise and a significant degree of influence (at least 10% of voting power) by the direct investor on the management. FDI is a long-term investment in interdependent economic integration, creating direct, stable...

WHAT ARE WE EXPECTING ?

Main goals and expectations

- **Continued growth in traffic and usage.** The primary goal of OECD is to increase usage, accessibility of OECD content to all, and all these developments have the common goal to increase the discoverability of OECD material.
- **A better service for all users.** Following user surveys, the OECD is trying to improve the user experience, answer user expectations, and will keep on improving its services in order to meet that target.
- The OECD is also working at improving the **coherence** of its multiple web services such as OECD.org, OECD iLibrary, OECD Data, in order to improve user journeys and give more **consistency** to the set of services that are offered to web users from all platforms.

Please provide feedback and comments

We will be happy to hear from you
